

**LESSON**  
**6-7** **Homework and Practice**  
**Line Graphs**

Use the line graph to answer each question.

1. In which year were Joe's average weekly earnings the lowest? the highest?

\_\_\_\_\_

2. In general, how did Joe's average weekly earnings change between 1996 and 2000?

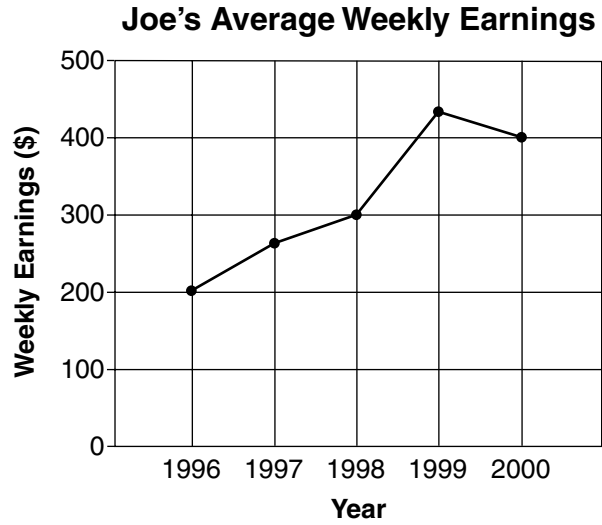

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

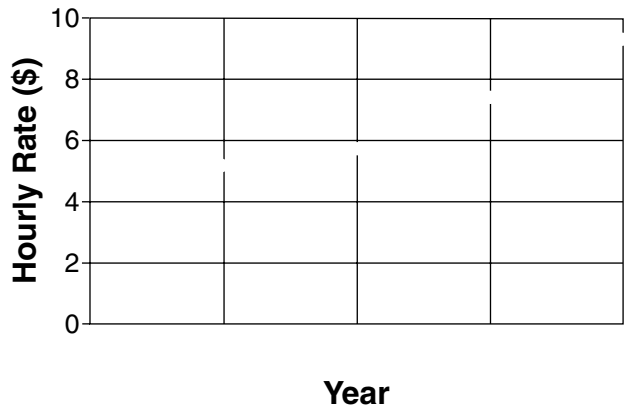

3. In which year did Joe earn about \$250 a week?

\_\_\_\_\_

Use the given data to make a line graph and answer each question.

<b>Juan's Hourly Wages</b>	
<b>Year</b>	<b>Hourly Rate</b>
1998	\$5.15
1999	\$5.69
2000	\$7.39
2001	\$9.23

4. Between which two years shown on the graph did Juan's hourly wage change the least?

\_\_\_\_\_

5. How has Juan's hourly wage changed since 1998?

\_\_\_\_\_
